

Geroprotective research on EGT is compelling

EGT demonstrates potential in major branches of cellular longevity research

Taxonomy of Longevity Endpoints		Academic Study
Oxidative Stress		[5,7,8]
└─┬─> Telomere Attrition		[1]
└─┬─> Epigenetic Drift		MB proposal
└─┬─┬─> Mitochondrial Redox		[9,10,11]
└─┬─┬─┬─> Senescence Escape		[2,3,4,6]
└─┬─> Proteostasis / UPR		[12,13,14]
